Personally tailored

The Guaranteed Future Value of your Audi is established at the beginning of the contract term, depending on the model and specifications of your Audi and the options you choose. Any additional factory fitted options are also eligible for inclusion under the program. You'll enjoy the peace of mind of knowing in advance exactly, at a minimum the value you can receive for your vehicle at the end of the term of your contract:#

Maintaining your vehicle

Your new Audi is an investment in quality, so we understand that you would prefer to maintain it in premium condition. To ensure the integrity of the program, your Audi must be in an acceptable condition when you return it to us and must not exceed the kilometre limit. Of course, we also understand that some reasonable wear and tear is only to be expected, but it needs to remain within the provisions set by your Audi Financial Services contract. Where the vehicle is not in acceptable condition, the Guaranteed Future Value of your vehicle will be reduced. A kilometre limit will also be nominated under the contract. If you have exceeded the nominated kilometres that will also reduce the Guaranteed Future Value. However, this won't affect your ability to choose whether you Trade-in, Retain (or seek to refinance) or Return your Audi.

The Audi Choice Program consists of an option that requires Audi Financial Services to purchase your vehicle at the end of your Audi Financial Services Chattel Mortgage, Consumer Loan or Hire-Purchase for a value (known as the Guaranteed Future Value) determined by Audi Financial Services and set out in your contract. The Guaranteed Future Value is not a representation by Audi Financial Services as to the likely market value of your vehicle as at the end of your contract. The option is available on selected new and demonstrator Audi Vehicles. Please verify with your dealership vehicles that are eligible for the program. If vehicles are not returned in an acceptable condition, as defined in the terms and conditions or exceed kilometre restrictions the Guaranteed Future Value will be reduced. The cost of the Program is incorporated into the interest rate on your loan or your rental. This is a summary only. Please read the full terms and conditions. Please consider whether these products and services are appropriate for your circumstances. Before acting on any of the information in this brochure, please seek independent financial and tax advice.

Full terms and conditions are available upon application. Available only to approved applicants of Audi Financial Services. Subject to credit assessment. Fees and charges apply. Fleet, government, rental buyers, hire car and chauffeur companies are excluded. Audi Financial Services is a trading name of Volkswagen Financial Services Australia Pty Limited ABN 20 097 071 460, Australian Credit Licence 389344.

See the “Maintaining your Vehicle” section in the customer brochure for information on the circumstances in which the Guaranteed Future Value will be reduced.
